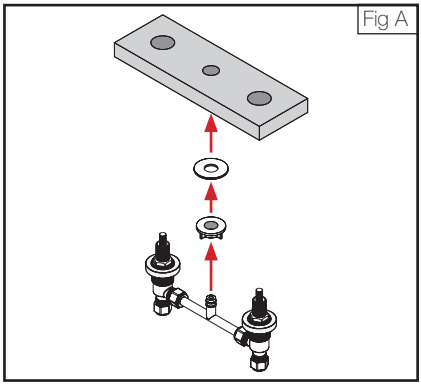
Hob Basin Tapware

1. **Important - Flush water lines on new installations before fitment to avoid damage to valve and blocking of filter or aerator**

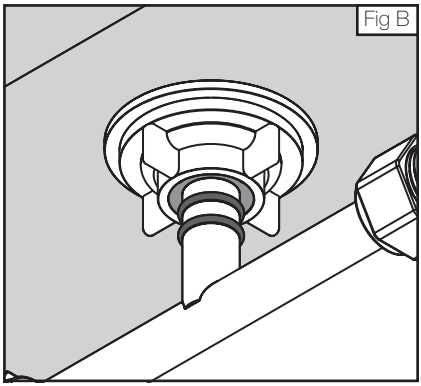
   Align the plastic washers below the outlet hole of the benchtop surface (Fig A).

   Place the washers at the center hole underneath the benchtop.

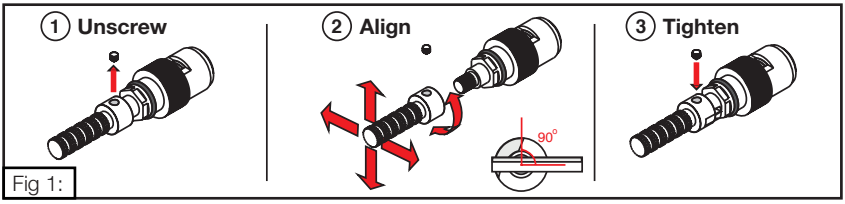
   Then place the tee-piece underneath the washers (Fig B).



2. Align the plastic washers below the outlet hole of the benchtop surface. Then insert the tee-piece (Fig B).



Handle Alignment for Lever Handles



Firstly ensure that the disc is in the closed position and then fit handle to align.

*Fig 1: To align the handle, loosen grub screw from the extension using 2mm Allen key, then rotate the position of the extension and ceramic disc cartridge until the desired handle position is achieved.

3. Remove handles and flanges from the tapware sets

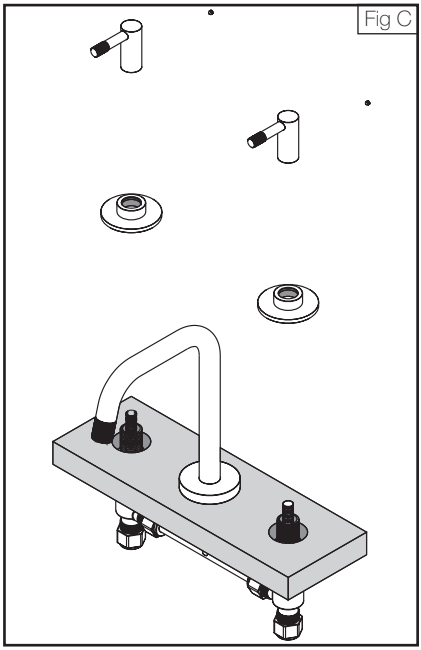
Install centre outlet

Connect the tee-piece to the bodies and tighten the nuts.

Push the assembly into position connecting the tee-piece to the centre outlet

Fit top locknut and washer so that it is flushed on top of the tap body

Fit flange and handle bodies (Fig C).



4. Screw and tighten the washers for the centre outlet to complete the assembly (Fig D).
