Pull-Out Hose Disassembly	10

Before Installation

Ensure the cutout for Hob Pull-Out Sink Mixer is 35mm in diameter

Hob Pull-Out Sink Mixer

Bolt-Type Installation

1. Place the Rubber O-Ring (9) into the pull-out connector. Then use the connection end of the Pull-Out Hose (8) to insert and tighten firmly

2. Apply lubricant to the o-rings of the Water Hoses (2). Then insert and tighten them underneath the Sink Mixer Body (1) to the matching colour indicators.

3. From the underside, insert O-Ring (3) and Threaded Rod (4) under the Sink Mixer Body (1) [Fig A]
Align and place the assembled body (1) and hoses (2) into the sink mounting hole.

4. Fit the Nylon Washer (5) first onto Threaded Rod (4) and then Brass Washer (6) next.
Use Hex Bolt (7) to tighten and secure in place. Ensure there are no leaks

Hob Pull-Out Sink Mixer

Brass Mount Installation

- 1** Sink Mixer
- 2** Water Hoses
- 3** O-Ring
- 4** Brass Mount & Washers
- 5** Bolted Locknut
- 6** Pull-Out Hose
- 7** Rubber O-Ring

1. Place the Rubber O-Ring (7) into the pull-out connector. Then use the connection end of the Pull-Out Hose (6) to insert and tighten firmly

2. Apply lubricant to the o-rings of the Water Hoses (2). Then insert and tighten them underneath the Sink Mixer Body (1) to the matching colour indicators.

3. From the underside, insert O-Ring (3) and screw in the Brass Mount & Washer (4) into Sink Mixer Body (1) [Fig A]
Align and place the assembled body (1) and hoses (2) into the sink mounting hole.

4. Fit the Washers and Locknut ring over the Brass Mount (4). Use the Bolted Locknuts (5) to screw in and tighten in place.
Ensure there are no leaks after assembly

Hob Pull-Out Sink Mixer

Sleeves-Type Installation

- 1 Sink Mixer
- 2 Water Hoses
- 3 O-Ring
- 4 Brass Screw & Washers
- 5 Sleeve Connector Assembly
- 6 Pull-Out Hose
- 7 Rubber O-Ring

1. Place the Rubber O-Ring (7) into the pull-out connector. Then use the connection end of the Pull-Out Hose (6) to insert and tighten firmly

2. Apply lubricant to the o-rings of the Water Hoses (2). Then insert and tighten them underneath the Sink Mixer Body (1) to the matching colour indicators.

3. From the underside, insert O-Ring (3) and screw in the Brass Screw & Washers (4) into Sink Mixer Body (1) [Fig A]
Align and place the assembled body (1) and hoses (2) into the sink mounting hole.

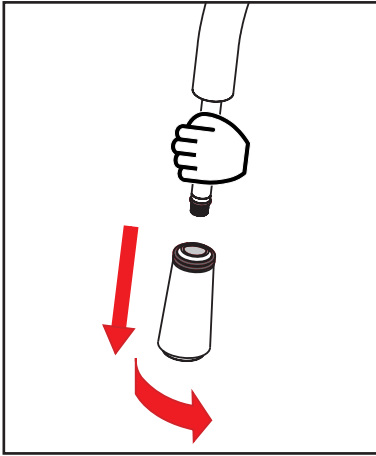

4. fit the washers over the Brass Screw (4). Use the Sleeve (5) to screw in and tighten in place
Ensure there are no leaks after assembly

Pull-Out Hose Disassembly

1. Unscrew the pull out handle while holding onto the hose to detach it out

2. Remove the pull-out hose by tugging it out of the sink mixer body

3. Insert the new hose by pushing through the body and the outlet. Ensure the spring coil is not travelling through the body and outlet

4. Hold the hose from the outlet. Then screw in to reinsert the handle back to the hose. Ensure there are no leaks after replacing the pull-out hose
